

School Community Council Minutes from November's Meeting (in red)

Monday, November 9, 2020

We will meet in person, but members and visitors are required to wear masks and adequately social distance.

Agenda

1. Review the 2020-2021 School Plan and Goals

The council reviewed the stated goals for the current school year and ongoing plans in place to help meet these goals.

2. Update Amendment to 2020-2021 Plan

The amendment to use the remaining funds in the budget to cover Cali Fuller's hourly rate to come in an additional hour each day in our first grade was approved at October's meeting.

3. Review End of Quarter 1 Data

Mrs. Gagon gave the council an update on current reading level data in the school. Reading levels have been tested twice this year and some growth is evident with students. At this time there is not any school-level data for math and science. There should be more to report at the February meeting.

4. Title I Report - Jennifer Mortensen

Jennifer Mortensen was unable to attend the meeting, so Mrs. Gagon presented the current school district Title I compact to be presented to students and parents at our parent-teacher conferences in November. A Title I compact is made with students and parents so they understand that we are a Title I school and are working together to meet goals. A copy of this is available on EmerySchools website under the Title I tab. All compacts will be signed by parents and students and collected and filed in the office.

5. Recording Training for Council Members

Mrs. Gagon reminded council members that it is important to be aware of council rules and regulations. The School Trust Land Committee at the state holds a yearly training. This year the "training" was recorded and sent to council members via email.

6. Adjourn

The council will meet again on the 1st Monday of February. We will review the "State of the School" presentation given at the board meeting by Mrs. Gagon.
